"Forge thy tongue on an anvil of truth, and what flies up, though it be but a spark, shall have weight."
--Pindar

SIS McDADE, our editor, was grounded last week because of an infection of some sort. Not content with that, she had an argument with the bathroom floor Saturday, and wound up in the hospital with knots on her head. She is much much better, thank you, but has decided that fainting isn't her long suit. This is by way of explanation why there will be little spark from the Anvil this week -- mostly noise.

HONESTY is always the best policy, unless, of course, you can back up a good lie. I usually start out with a good lie and then have to ruin it with honesty. This sort of reminds me of a maid my mother once had who had an unquenchable sweet tooth. She kept telling Mother that the rats were eating the candy and cookies that were being stored for Christmas. Mother hid some candy in the wardrobe but it still disappeared, piece by piece. In exasperation, Mother said, "Well, I wonder what rat has been eating this candy?" The maid, standing near by, drew herself up, and retorted, "I am NOT a rat!" See what I mean?

THAT wasn't the honesty I had in mind when I started writing. Father Bob Silverman of St. John Catholic Church, did a reversal of the collection plate bit, by bringing nickels and dimes to us, Monday. The high winds of the night before had toppled our newsstand in front of the post office scattering change all over the place. He very carefully picked it up and brought it in to us. If the Anvil Herald has a patron saint I'm not sure who he is, but we'll be happy to settle for Father Silverman.

MEDINA COUNTY FARM BUREAU is going to build at the corner of 30th and Yancey Road, Uvalde Production Credit Association will maintain offices in the same building. Hopes at the present are that the new building will be ready for occupancy July 1.

MORE EVIDENCES OF HONDO'S GROWTH can be seen in the new Winkler Addition, the starting of the low-income housing project, new homes being built in various parts of town, expansion of Universal Rundle and new business enterprises along Highway 90. Which brings to mind something else.

HEMISFAIR is less than a month away. We've been urged to make the most out of it that traffic will bear, but I haven't heard too much stress on a great BIG Texas welcome. Wonder where that went? We'd better be for brushing up on our courtesy, being sure the other foot is just as good as that best foot forward, and treat all visitors to Hondo and Medina County to such friendliness and good will that they'll just naturally gravitate to us for another visit or to settle here.

PUBLIC HEARINGS on tentative changes in the Act which created the Edwards Underground Water District will be heard in San Marcos at 10:00 a.m., March 15 at the court house. A second hearing is scheduled in New Braunfels on March 26, same time, at the court house there. There is to be another meeting April 9 in Hondo, but at this writing we haven't received word of time or place.

VOTING on three councilmen will take place in Hondo, April 6. Forgive me for being partial, but one of my votes has been set aside for our own G. E. (Pete) Pedroza who heads the office machines department of the Anvil Herald. There has long been a need for a representative for the Latin Americans in Hondo. I can think of no more level-headed, honest, sincere and common-sense a man than Pete. He was the unanimous choice of the City Council to fill the unexpired term of Albert Rowlett who resigned to accept management of the City Water Board. I think we need a re-Pete of their decision come April 6.

AFTER HEARING a young parent jokingly say his new son had no respect for his parents because he arrived just after the New Year instead of just before so that he could be counted as a deduction on income tax, the thought struck me that just when did we start considering babies as deductions instead of additions to the family?

SPRING AND LOCAL GARDENERS received a set back with a few huffs and puffs from old man North, Monday. Those fruit trees in full bloom will just naturally have to produce frozen fruit.

I WONDER, if like me, every gardener has his own private Green Giant who says, "Hoe, hoe, hoe" everytime a seed is dropped in the ground?

Scouts Plan Drive

The 1968 Boy Scout finance campaign in Hondo will have a kick-off dinner meeting Tuesday, March 26, in Hermann Sons restaurant at 7:00 p.m., with Leslie A. Vance, chairman.

William Fly and Tom Kuykendall are advance gifts co-chairmen in Hondo with W. T. Crow, audit chairman.

Majors in the effort are Tony Mendoza and James Tschirhart.

Mendoza will have these captains on his team: Oscar Dominguez, G. R. Canales, Johnny Joe Mendoza, Joe Perez and Arlen Graff.

Tschirhart's team include Vernon Grunewald, John McAnelly, George Schmidt, Damon Westbrook and Glenn McWilliams.

Hondo is in the Hill Country District of the Alamo Area Council.

ONE OF THE SCIENCE PROJECTS THAT Class 8-C of the Lacy Elementary School worked on for Public School Week, was the river system. Shown with their handiwork are L-R, Janelle Been, Mary Ann Martin, Myra McCartney, and Karen Jesse. Their instructor is Mrs. Nell Richter.

HOME BURGLARIES

Dope Addicts Blamed For Increase in Crime

San Antonio dope addicts are to blame for much of the increase of crime in Medina County, Sheriff C. J. Hitzfelder told the Anvil Herald this week.

Hitzfelder said that crime is increasing in Medina County at about the same rate as the rest of the country, although violent crimes such as murder, criminal assault and armed robbery are much lower here than nationwide.

The big increase in Medina County over the past few years has been burglaries of homes, especially in the eastern part of the county, the sheriff said.

Hitzfelder explained that the large concentration of narcotics users in San Antonio is responsible for the heavy increase in home burglaries in outlying areas of Bexar County and in adjoining counties. He said that his office works very closely with the San Antonio Police Department, Bexar County sheriff's office and Texas Rangers in attempting to pre-

Related News, Page 11

vent and solve these burglaries.

The main problem in dealing with narcotics users is that when they need a "fix" they will go to any extreme in order to get it, he explained. Narcotics pushers almost always demand cash on delivery, and in order to get the cash women addicts usually turn to prostitution, while men addicts turn to armed robbery and burglary. The armed robbers usually stay in San Antonio, hitting ice stations, taverns and service

stations, while the burglars often spread out into the countryside, Hitzfelder explained.

With the average dope addict needing \$50 or more a day for his drug, it is easy to see why such a large number of robberies and burglaries are committed daily in and around San Antonio, Hitzfelder said.

Hitzfelder said that there is a well-organized "fence" system with which the burglars can dispose of their stolen merchandise. He said that formerly, most of the stolen goods usually showed up in the San Antonio area, but that now a lot of it is apparently being shipped out of state. He said that this sophisticated "fence" system makes it much more difficult to solve burglaries now.

The sheriff's department does not have the personnel to regularly patrol all the rural areas of the county, Hitzfelder said. With many homes occupied only on weekends, it is often several days before the department knows that a burglary has taken place.

Needy To Get Food

Applications will be taken beginning Monday for the Medina County Commodities Distribution Program, according to an announcement by Medina County Judge J. R. Duncan.

The program which will provide surplus foods for the needy, is sponsored by Medina County in cooperation with the State Department of Public Welfare and the U.S. Department of Agriculture. The City of Hondo is cooperating with the program by furnishing a building free of charge.

Joe Lee Nixon, formerly assistant cashier of the Hondo National Bank, has been selected as commodity supervisor for the county program. He will be assisted by Mrs. Crystal Welch, who will serve as a commodity worker for the first 30 days, and Mrs. Laura Landers, secretary.

These workers are now being trained by Virgil K. Martin, field supervisor of the commodity distribution division of the State Department of Public Welfare. He is being assisted by Charles H. Carlisle, administrative assistant of the Southwest district office of the Consumer and Marketing Service, USDA.

Foods available include flour, cornmeal, dried milk, butter, cheese, lard, raisins, dried beans, rice, rolled oats or wheat, peanut butter and canned chopped meat. In the near future instant potatoes will also be available.

Applications will be taken Monday and Tuesday, March 18-19, for the needy in Precinct 3. On Monday, Tuesday and Wednesday, March 25-26-27, applications will be taken for the needy in Precinct 2.

Dates for the other precincts will be announced later, Judge Duncan said. Applications must be processed before food can be distributed, and this will be done as fast as possible, he explained.

FOUR JUVENILES ARE APPREHENDED

Four juveniles accused of shoplifting and theft have been apprehended, Sheriff C. J. Hitzfelder said.

Sheriff Hitzfelder said that watches taken from Delony's Jewelry and Winn's Store were recovered, as was cash taken from the Meyer Elementary School.

Yancey School Calls \$250,000 Bond Vote

A \$250,000 bond election has been called for April 6 by the board of trustees of the Yancey Independent School District. A maintenance tax election will be held in conjunction with the bond election.

The election was called at

a meeting of the trustees Monday night. They had received a petition from a number of citizens in the district asking that the election be called.

If the bonds are approved by the voters, the funds will be used to construct a new school building in Yancey, Supt. C. V. Tubbs said. He explained that the school is in urgent need of additional facilities.

The first proposition on the ballot will be the authorization of a maintenance tax rate for \$1.50 per \$100 for the district.

The second proposition will be the authorization for the board of trustees to issue bonds in the amount of \$250,000, maturing serially over a period of 40 years at an interest rate not to exceed five percent. Under this proposition the district may assess taxes not to exceed \$1.00 per \$100 to repay the bonds.

All qualified voters who own taxable property, real or personal, in the district will be authorized to vote in the bond and tax elections.

The order calling the election was passed unanimously on Monday night. Voting for the proposition were Mrs. Gerhart H. Weynand, president; Auda V. McCrea, secretary; Edward Fohn, Ramon Soliz, Joe Ontiveros and Mrs. Sheba DuBose. Trustee Clarence Wiemers was not present at the meeting.

The bond elections will be held in conjunction with the regular trustee election April 6 at the school cafeteria. Milton Fohn will be presiding judge with Ed Faseler and Ernest Wiemers as clerks.

The trustees are unopposed in their bids for re-election.

Jack Winkler

Jack Winkler Candidate For Council

Jack Winkler, Hondo businessman, this week formally announced his candidacy for Hondo city councilman in the April 6 election.

In making his announcement, Winkler said:

"I feel that Hondo has benefited greatly by the present city administration headed by Mayor Jerome Decker, and I would like to do my part in assisting the growth and development of Hondo. Although I have had no political experience, I believe my experience as a businessman will be useful in helping to continue to operate the city government in a business-like manner.

"I will appreciate the vote and support of all the citizens, and if elected will serve the city in the best manner possible."

Winkler has been in the automotive business in Hondo for the past 16 years, and in the home building business for the past year. He said that he entered the home building business because Hondo's growth was being slowed by the lack of homes being built here, and he felt that this service was essential in community development.

Winkler is married and the father of two sons, both college students.

Dr. Jennings Heads Smith Campaign

Lt. Gov. Preston Smith has announced the appointment of Dr. John H. Jennings, local optometrist, as Hondo chairman of the Smith for Governor campaign.

Dr. Jennings commented that he is supporting Preston Smith for governor because, "We need to stress experienced leadership; we need someone greatly interested in moving our state forward, and ever conscious of the heavy tax burdens on the people, fair, uncontrolled, and I believe Preston Smith is the one best suited to follow through."

SHADES OF ABE LINCOLN

Good Deed Almost Unbelievable

"I still can't believe it!"

Mrs. Daniel E. Herrmann, who lives 11 miles from Yancey, has every right to feel that way. She was in San Antonio at North Star Mall last Thursday afternoon. She went to the parking lot, took her keys out of her purse to unlock the trunk, and placed her purse on the top of the car. She went merrily on her way when "that gone feeling" overcame her. She back tracked but no purse was in sight.

"I went home knowing that we'd be ruined because all our credit cards were in there," said Mrs. Herrmann, "so you can imagine my surprise to find a young man, holding my purse, waiting for me when I drove in the driveway."

Joe Jackson, 24, of San Antonio, had found the purse after it had fallen off the car at San Pedro Avenue. He noticed that the contents belonged to an out-of-town visitor, went to Hondo and then to Yancey where he asked for directions to the Herrmann home.

Jackson did not want a reward for his kind deed. It was only after much persuasion that Mrs. Herrmann convinced him he should take \$10.

"He made a 150-mile round trip to bring that purse to me because he knew I'd be worried sick," Mrs. Herrmann said, "so I insisted on filling up the gas tank for him."

"Most of the time all we

read about our young people is that they are not good or trustworthy. I want everyone to know that they can't lump all young people into that mold," she continued.

Jackson told her his father is manager at Jordan Ford Motors in San Antonio and that he was out job hunting when he found her purse.

Abe Lincoln walked many miles to return a penny. This is a modern day, however, and Jackson's journey is comparable. One thing certain, if Joe Jackson ever runs for President Mrs. Herrmann will campaign for him.

ROBERT BREITEN, 74, was presented a gift from the Hermann Sons Grand Lodge at the regular lodge meeting on Tuesday, February 20, 1968. Making the presentation was Frank Graff, president of the lodge. The gift was in appreciation for the work Breiten had done in remodeling the meeting hall.

TRAFFIC TOLLS . . .

FOR YOU AND FOR ME...

In a release from the Texas Department of Public Safety of rural traffic accidents for February, Medina County shows seven personal injury — 12 property damage accidents, nine persons injured. Property damage was \$10,305.

There may have been other accidents and injuries of which the TDPS had no knowledge. Many accidents go unreported.

Much of the blame can be charged to delayed perception which is another way of saying — inattention to driving.

Faulty evasive action on the part of some drivers accounts for

many of these accidents.

Medina County is fortunate that there were no deaths from traffic in February.

Don't feel smug about it.

At least eight-five percent of all accidents can be attributed to driver behavior. It would be nice to stay in that fifteen percent category, but unless you stay alert, drive courteously, refuse to drink intoxicants when driving, maintain safe speeds, obey traffic laws and signs, you might find yourself in the majority — the hospital — or worse.

It is up to YOU!

LOCAL BUSINESS

Step-Up In Advertising Attacks Consumer Apathy

Many signs indicate that the American economy may be severely tested during 1968. The expansive progress of the past seven years seems to be threatened by fear and lack of faith.

It may seem improbable that the mighty American business complex could be disrupted by intangible factors such as fear. However, the threat of a recession can not be traced to any material shortages.

In America, every type of product associated with consumer well-being is plentiful. Nowhere is productive capacity being fully used. There is yet no evidence that the Vietnam war should draw from consumer trade.

If a real block to progress develops, it will be a block in distribution. In a free economy, every business activity is

affected by the behavior of the consumer. The local buyer of an automobile controls the production schedule of distant factories. When distribution breaks down at one point, a general halt in production and general halt in production and distribution results.

The buying of the Texas rancher directly affects the employment of garment workers in New York. Employment and consumption of goods in Michigan affects the Florida hotel operator. Several times since World War II, an atmosphere similar to the present has developed. But no depression, nor prolonged recession, occurred. In each case American business met the threat with a display of optimism and renewed faith. And, as in 1955, the direct attack against consumer apathy included a vigorous step-up in advertising.

Today a new display of faith seems to be overdue. A move has already been made by some major manufacturers. But the major stimulant to consumer action will be the responsibility of local retail advertising.

PHILOSOPHER RECKONS TRAFFIC, WITH NEW IDEAS, MIGHT COME OUT GARBAGE

Editor's note: The Old Philosopher on his Johnson grass farm comes up with an idea this week which probably requires additional study.

Dear editor:

Excusing maybe Viet Nam, riots, and teenagers, for every problem there's usually a solution, and it was with considerable interest I read about a solution for the garbage disposal problem in big cities in a newspaper somebody threw out of his car near this Johnson grass farm yesterday.

According to it, cities would no longer depend on men and trucks to pick up garbage, thus eliminating the inconvenience of flat tires and strikes and banging cans around in the early morning hours. Every house and apartment would be tied into a special garbage disposal pipe. When garbage collects, you put it in a special plastic bag, drop it in, and it's automatically shot through the pipe and right on out of town to the garbage dump 15 or 20 miles away. The whole thing is simple, and I'll bet Gov. Rockefeller wishes it had been thought up sooner.

But cities shouldn't stop there. Take the automobile problem. Everybody knows the car, with its traffic jams and sheer mathematical impossibility of finding enough parking room, is making city life almost impossible. A man can now cross New York City faster on foot than he can by car, and what the gasoline fumes are doing is even worse.

As I understand it, the car was invented to eliminate the horse, but it hasn't worked out that way; it eliminates more people in one day than it does horses in a year. How many horses were killed in traffic accidents last year?

But cities shouldn't despair. Why don't they adapt this new pipeline garbage disposal idea to people? You wouldn't want

to get the two systems mixed up, but why not build a separate pipeline for people and transport everybody by pneumatic tube?

Every morning, a wife could zip her husband up in a plastic bag, drop him in the chute, and 39 seconds later he'd pneumatically appear in his office. No traffic problems, no gasoline fumes, no congestion, no waiting on elevators, peace and quiet in the streets. At quitting time, he puts his plastic bag back on, crawls in the pipe, and is shot home immediately.

The system will work. All it'd take is a little special training of wives in remembering which pipeline to use every morning. Wouldn't want the garbage arriving in the office and the husbands at the dump, except in some special cases which I won't go into.

Yours faithfully,

JA.

D'Hanis Youth Joins Marines

Emilio Zapata, son of Mr. and Mrs. Miguel Zapata of D'Hanis, has enlisted in the U.S. Marine Corps.

Emilio is presently attending D'Hanis High School and will graduate in May.

Emilio joined the Marines via the 120 day delay program which enables him to postpone his date of departure for recruit training and active duty up to 120 days. He will begin his active duty on June 4.

This program has an added financial benefit because a serviceman's first pay raise is at the end of four months time -- active or inactive duty.

He is scheduled for eight weeks of boot camp at the Marine Corps Recruit Depot, San Diego, California, followed by advanced training at Camp Pendleton, Calif., before he returns home on leave.

Famed Local Native Dies in Fort Worth

Funeral services were held Wednesday afternoon in Fort Worth for Bill Van Fleet, 59, veteran sports editor, writer and columnist for the Fort Worth Star-Telegram.

Van Fleet, a native of Hondo, died early Tuesday as an ambulance took him to a Fort Worth hospital. He was struck down at his home there by a heart attack that came in the wake of surgery and pneumonia.

He had returned home only the day before from a hospital where he had been confined nearly a month. He told friends then, "I'm going to live another 20 years now."

Sports was his life. His by-line on stories and columns brightened Star-Telegram sports pages for 31 years. He worked previously for six years at the Galveston News.

He attended Schreiner Institute and the University of Texas. He was in the Navy during some of the fiercest South Pacific action of World War II. He and his wife, Virginia, recently observed their 30th wedding anniversary. He also left a daughter, a former University of Texas beauty, now Mrs. A. C. Williams of Houston.

Van Fleet was widely read, respected and liked. He had been president of the Texas League Baseball Writers and a committeeman for the National Football Writers Association. "Will was an impeccable newspaperman," said Jim Trinkle, a Star-Telegram sports columnist and writer and a close friend.

"He was not a writer at the expense of being a reporter. They are not the same. He kept his sentences clear. He could write because he had all the emotions and sensitivities it takes to be a newspaperman."

His style was clear, informative and precise. Colleagues marveled at his speed. He cut swiftly through the trivia of complex sports situations and produced bright, interesting prose.

The Van Fleet approach to life was equally rare.

He was convinced his was the best job on the best newspaper in the best city in the best state. His life was filled with fun, laughter and more importantly, contentment.

When he wasn't writing or talking about sports, he was participating. He was an avid golfer and fisherman, and a delight to watch as he eagerly set about doing either.

"To Van Fleet, there were people and there were friends, but no enemies," an associate said.

"Van Fleet," said Trinkle, "was so genuinely a man that his whole person and personality was inspiring."

He is survived also by two brothers, Clarence Van Fleet of Hondo and Alton Van Fleet of Tarpley; and two sisters, Mrs. H. M. Trimble of Nederland and Mrs. L. W. Burgess of Galveston.

The famed writer was buried in Rose Hill Cemetery in Fort Worth.

July 1, HemisFair Camp Fire Day

Mark July 1 on your calendar in red, white and blue. This will be our BIG DAY at the HemisFair, the only World's Fair ever to be held in the South. Miss Lois Jarrell has been given the special assignment of planning this day and helping to make it the most spectacular, fun-filled day ever to be held in Region IV.

TALENT NEEDED

We will open the DAY with a Flag Ceremonial and close it with a beautiful and inspirational ceremony. Throughout the day, groups from councils in the Region will have the opportunity of performing in some of the theaters at the HemisFair. Do you have any fine choruses? Trios? Quartettes? Any Combos? Guitar playing groups? Other instrumental groups? Any folk dancers? Mod dancers? Puppet Shows? Other dramatic creations? Let your guardians know you are interested in participating, and if your group has not reorganized this year, contact Mrs. Inell Rogers, Group Organization Chairman, and let's get it started!

SONG CONTEST

We want some new songs for Camp Fire Girls. We want some new songs written by our girls. And so - here's a Camp Fire Girls Song Contest:

1. Words and music must be original.
2. Each entry must have on it the name of the girl, her age, program classification, address, name of council.
3. Five copies of each song must be sent, one for each of the judges.
4. Guardians will send your entries to the proper destination.
5. Deadline: April 15, 1968.

Selected songs will be sent to all councils in May so that girls may learn them before Camp Fire Girls Day at the HemisFair. At the closing ceremony there, recognition will be given the young composers. So get busy, and let's have our own music fill the air at the HemisFair.

FOUNDERS DAY

Camp Fire Girls will be celebrating Founders Day, March 17, in their own special way by attending church services in costume. Birthday Week, Mar. 17-23 will find the girls involved in various programs showing some of the things Camp Fire Girls stands for, and giving thanks to special persons for help given us throughout the year.

WINDOW PEEP

Look for our display windows around town, talk to Camp Fire Girls, join a group, offer to help groups already formed. We are 58 years old this month, but we still have plenty of girlish charm! And as always the educational-recreational program of Camp Fire Girls has much more than charm for girls. We hope that you'll celebrate with us and accept our deepest thanks for your loyal interest in the girls of America.

Social Security

"Disabled widows can now receive social security benefits," said D. G. Hudson, Acting Manager of the social security district office in San Antonio, Texas.

For more information, contact your social security representative, David Helmer, who will be in Hondo Monday, Mar. 18, at 9 a.m. in the district courtroom.

lary has been committed, he explained.

Hitzfelder said that citizens can aid the officers in holding down the number of these crimes by reporting suspicious persons in rural areas, and by making rural homes as secure as possible. He said that dope addicts are usually in a hurry to commit their crime and return to the city to get their dope. Often they will not go to the effort to break down a wooden door, but will not hesitate to break a glass or cut a screen to get into a house.

"We are using every method at our disposal in order to hold down crime in Medina County," Hitzfelder said. "We hope that all citizens will cooperate with us in any way possible in this effort."

To help curb illicit drug traffic, the United Nations Commission on Narcotic Drugs is making efforts to get opium-poppo and coca-leaf farmers to switch to less psychedellic crops. Typhoon damage in Eastern Asia runs to \$500 million a year, the United Nations estimates.

H. M. Finger Heads Easter Seals

Persons with physical handicaps who need treatment and service in Medina County may find the services they need through Henry M. Finger, who is the Medina County Representative of the Easter Seal Society for Crippled Children and Adults of Texas.

The Easter Seal Society offers rehabilitation services to children and adults with physical disabilities including speech and hearing problems, according to Finger.

The Society also operates an information and referral service that will direct residents of Medina County to other appropriate sources of health and welfare aid in the area, he said.

Finger urged parents, doctors, nurses, clergymen and other individuals and organizations to refer handicapped persons who need assistance to the Easter Seal Society by contacting him at Hondo National Bank in Hondo.

The Easter Seal program is financed by contributions made during the Easter Seal Campaign which is now under way and will continue until April 14, Easter Sunday.

Deer Trophy Disappears

When Fritz Luckenbach of Menard dropped his buck deer this year he found that it sported an impressive set of antlers. However, the trophy didn't last very long.

Luckenbach nailed his antlers to a live oak tree in front of his hunting cabin and thought no more of them for several days. When he returned for another look, he found only a tiny fragment of bone and two nails. The calcium-laden antlers were completely gone.

It seems that other wildlife besides deer like antlers. Busy, hungry squirrels and other rodents had completely consumed the rack. Luckenbach feels that if the rodents have an iron deficiency, the nails probably won't last long either -- and, he couldn't be blamed for hoping the varmints came down with a severe attack of gnawsea.

Cowmen Convene Mar. 25-27

Cattlemen throughout Texas and the Southwest are making plans now to be in San Antonio for the annual convention of the Texas and Southwestern Cattle Raisers Association, March 25-27.

Headquarters for this 91st yearly get-together will be the St. Anthony and Gunter Hotels with registration opening 8:00 a.m., March 25 in the joint headquarters.

Governor John Connally will address the delegates Wednesday morning.

Ben H. Carpenter of Dallas, TSCRA President, pointed out that the cattle industry from birth to bite will be covered at this convention. Committee meetings Monday and Tuesday will delve into a wide area of topics of vital interest to Texas and Southwestern cattlemen. "These standing committees will cover such divergent topics as taxes, water problems, marketing, research and animal disease problems... all with the common thread of touching our most sensitive nerve, our economic pocketbook," Carpenter said.

The fun and flair of historic San Antonio will be part of the outstanding convention entertainment program. Through special arrangements a "Night in Old San Antonio" has been scheduled Monday night, Mar. 25 to be put on by the San Antonio Conservation Society. Tuesday night will feature the traditional Cattlemen's Ball and the New Christy Minstrels.

By Mrs. Glenn Keller Residents along Route 4, San Antonio and the Rio Medina rural mail route found their mailboxes damaged, Saturday morning.

Vandals struck sometime Friday night, leaving most of the boxes badly dented and others completely destroyed when the posts on which they rested were broken off near the ground.

The vandalism was reported to local authorities and is under investigation.

PIONEERS IN A NEW FIELD are what Kent Middour of Castroville and Charles Hood of D'Hanis are. For the first time, the Medina County 4-H Food Show could boast of two boys in a heretofore all girl show. The boys were red ribbon winners in their food division. The show was held in Hondo recently.

A BISHOP LOOKS AT LIFE

BY THE RT. REV. EVERETT H. JONES, D.D.
The Episcopal Church, Diocese of West Texas

In the Bronx Zoo in New York City one can see a great variety of wild animals. They come from all parts of the world and on the bars of each cage there is a sign which tells the name, habitat, and characteristics of its occupant.

There is a surprise in store for visitors, however, because one cage has a sign that reads: "You are looking at the most dangerous animal in the world. Clever and intelligent, this animal has slaughtered to extinction whole species of other animals. It has the power to destroy all life on earth."

Then when you look between the bars, you see your own face in a mirror.

One reason we are so dangerous is that God has given us so much power. He is pictured in the Bible as saying to us: "You have dominion over the fish of the sea, and over the birds of the air, and over every living thing that moves upon the earth." (Genesis 1:28) Never was this more true than it is today!

With all this power the record of our stewardship is not good. We have exploited our resources, leaving death and destruction in our path. We have victimized our own species, and have enslaved and killed our own brothers. We have proved how dangerous we can be to one another and to ourselves.

Recently a bishop in Zambia in Central Africa was making a report on conditions in his area. He said that most people thought of tropical Africa as the home of "wild animals". He said there was indeed some reason for this association, as there was constant need for vigilance against attack. In some rural areas evening services are impossible because of the danger lurking in the darkness. He reported that a child could not pay her Church School boarding fees because her uncle who had always paid them had been killed by a lion.

Then he added in his report: "But the Church's real battle here is not against wild animals around us but within the heart of man."

Nutria Take Styrofoam For Nesting Material

Persons using styrofoam floats to float their houseboats or marinas had better do some checking says Johnnie Springman, caretaker at the Ridge-wood Yacht Club at Lake Waco.

Springman reported that nutria are making holes in the plastic foam floats at the club's service building preparatory to making nests for their young. The building now lists in one corner.

It is suggested that if nutria are causing problems on a lake, floats should be covered with galvanized hail screen being placed in the water.

Public Invited To Council Fire, March 18

A county-wide COUNCIL FIRE is being planned for March 18 at 7:30 p.m. It is to be held on the grounds in the rear of the Methodist Church of Hondo, weather permitting.

All former members and presently active members of Camp Fire Girls are invited to attend, in costume if possible. This event is being planned to coincide with Camp Fire Birthday Week.

"The public is invited to attend our impressive Council Fire," council president Leroy Miller said.

HemisFair Center Help Asked

Plans are nearing completion for Hondo's HemisFair information center, Chamber of Commerce Manager Harry E. Filleman reported this week.

The center will open April 1--just six days before the opening of San Antonio's world fair. It will serve the hundreds of thousands of motorists who will pass through Hondo during the six months' run of the fair.

It will be located in the old Buick agency building on Highway 90 West, which is being furnished to the changer without charge by Jack Winkler. The center will be manned primarily by voluntary help.

Filleman said that Mrs. Harvey Renken and Mrs. Fred Bader are painting large road signs advertising the center, and that other persons and firms are loaning furniture for the center. Universal-Rundle Corp. has loaned two desks, and the City of Hondo has furnished a large table. Some chairs are still needed, Filleman said.

"Perhaps others could contribute clever ideas as to how we may decorate the center so as to make it attractive as possible to our visitors," Filleman said. "Let's make this center a community project. We will use all the voluntary help we can get, any time of the day up to 9 p.m."

"If you like to meet people and want to boost Hondo, just come out and help. It could be loads of fun and we need everyone," Filleman said.

Beef Course Starts Monday

A beef production short course for Adult farmers will be held Monday through Wednesday under the sponsorship of the Yancey High School Vocational Agriculture Dept., according to C. V. Tubbs, superintendent, and J. D. Schmidt, teacher of vocational agriculture. Meetings begin at 7:30 p.m.

W. W. (Bill) Holtzapfel, beef production specialist with the Vocational Agriculture Division of the Texas A&M University will be the instructor for the course. He is headquartered at Texas A&M.

A barbecue will be held the final night, Schmidt said.

The appointments are part of UGPL's overall realignment program which includes the establishment of four division offices, each of which will encompass two districts, Myers said.

Crime Increased 16 Percent In 1967

Serious crime in the United States increased 16 percent in 1967 when compared with 1966 according to figures made available today through the FBI's Uniform Crime Reports and released by Attorney General Ramsey Clark.

FBI Director J. Edgar Hoover said all Crime Index offenses registered substantial increases in volume. Crimes of violence were up 15 percent, led by robbery up 27 percent, murder 12 percent, forcible rape 9 percent, and aggravated assault 8 percent. The crimes against property rose by 16 percent as a group. Individually, auto theft rose 17 percent while burglary and larceny \$50 and over in value were each up 16 percent.

Mr. Hoover stated crime increases were reported by all city groups, with the sharpest change in volume noted in the large core cities 250,000 and over in population up 17 percent. The suburban areas recorded an overall increase of 16 percent while the rural areas were up 13 percent in volume.

The crime increases, according to Mr. Hoover, were consistent throughout the United States. The Northeastern and North Central States were each up 18 percent, while the Western and Southern States reported an average increase of 15 percent.

The FBI Director noted that serious assaults where a gun was used as the weapon rose 22 percent and that one out of every five assaults was committed with a gun. The vicious street crime of armed robbery had a sharp upswing of 30 percent and a firearm was used in 58 percent of all robbery offenses.

The figures released by the FBI disclosed that in 1967 police arrests for all criminal acts, except traffic offenses, increased 4 percent. Arrests of adults, which declined slightly in 1966, rose by 3 percent in 1967. Arrests of persons under 18 years of age continued to rise in 1967 with an increase of 8 percent. Included in the increased police arrests was a rising volume of arrests for offenses against public order.

MEDICARE ANNOUNCES MARCH 31 DEADLINE

"March 31 is a very important date for all those persons that became 65 years of age before January 1, 1968," said D. G. Hudson, Acting Manager of the social security district office in San Antonio.

Hudson said that March 31 is the deadline for signing up for Medicare for those persons who were age 65 before 1968. Actually, the deadline is only for the Medical Insurance part of Medicare.

He explained that there are two parts to Medicare: Hospi-

tal Insurance and Medical Insurance. There is no deadline for Hospital Insurance. In fact, the application for Hospital Insurance has a 12-month period of retroactivity if a person could be eligible that far back. The deadline for signing up for Medical Insurance is an important date to remember and all persons are urged to sign up if they have not done so and if they were 65 years old before January 1, 1968.

It is the Medical Insurance part of Medicare that helps a person with part of his doctor's bills. There is a \$50 deductible, and Medicare pays 80% of the balance. It is strictly voluntary, and there is a monthly premium to be paid.

3 LOCAL STUDENTS AT TARLETON STATE

He is a senior agriculture education major at Texas A&M University. The eight weeks of supervised teaching is required in the course of study for this degree.

Arkansas Trio In Jail Here

Three Arkansas men are in Medina County jail in lieu of bond after being charged with using stolen credit cards.

Sheriff C. J. Hitzfelder said the trio was apprehended after using one of the cards at the Bill Roer service station just west of Castroville. Roer became suspicious, and notified the sheriff's department, which apprehended the men.

TO THE DULY QUALIFIED RESIDENT ELECTORS OF THE CITY OF HONDO, TEXAS, AND TO ALL OTHER INTERESTED PERSONS:

NOTICE IS HEREBY GIVEN that an election will be held in and throughout the City of Hondo, Texas, on the 6th day of April, 1968, on the question of the adoption of a One Percent (1 percent) Local Sales and Use Tax within said City, in keeping with the following ordinance adopted by the City Council of said City, as follows, to-wit:

Section 1. That said election shall be held in accordance with the Constitution and laws of the State of Texas, and all duly qualified resident electors of the City of Hondo, Texas, shall be qualified to vote. Section 4. That the ballots of said election shall conform to the requirements of Section 2, Subsection G, of Article 1066c, Vernon's Texas Civil Statutes (Acts 1967, 60th Legislature, Regular Session, Chapter 36, Page 62), and to the requirements of Chapter 6 of the Election Code of the State of Texas, as amended, and the language to be printed thereon shall include the following: OFFICIAL BALLOT INSTRUCTIONS: Place an "X" in the square beside the statement indicating the way you wish to vote. FOR adoption of a one percent (1 percent) local sales and use tax within the city. AGAINST adoption of a one percent (1 percent) local sales and use tax within the city.

Section 5. That election judges and clerks are directed to comply with Article 6.06, Election Code of the State of Texas, as amended (Section 2 of House Bill 181, Acts 1967, 60th Legislature, Regular Session, Chapter 452, Pages 1028, 1029) which provides that a square shall be placed beside each proposition in which the voter is instructed to place an "X" or other clear mark to indicate the way he wishes to vote; but which also provides that failure of a voter to mark his ballot in strict conformity with the directions on the ballot shall not invalidate the ballot, and the ballot shall be counted if the intention of the voter is clearly ascertainable, except where the law expressly prohibits the counting of the ballot. It is specifically provided that the election officers shall not refuse to count a ballot because of the voter's having marked his ballot by scratching out the statement or proposition for which he does not wish to vote.

Section 6. That notice of the election hereby ordered and called shall be given: (a) by publication on the same day of four successive weeks in a newspaper of general circulation published within said City of Hondo, the date of the first publication to be at least twenty-one (21) days prior to the date set herein for such election; and (b) by posting of such notice at the polling place of the City of Hondo, Texas, not less than twenty (20) days prior to the date set herein for such election. It is hereby found and determined that the Hondo Anvil Herald is a newspaper published within the City of Hondo, Texas, and is a newspaper of general circulation within said City.
